

Competent body A1 for Heat cost allocators

Test report on test and certification of heat cost allocators (HCAs) with electrical energy supply according to EN standard 834

Applicant:

Sontex SA

Type designation:

555 / 556

Test report number:

SD08 H004 SO

7th issue (pdf)

The inspection body is a testing laboratory which is accredited under DAP-PL-3139.00 by the German Accreditation System for Testing Ltd (DAP) according to DIN EN ISO/IEC 17025:2005 and recognised by DIN CERTCO GmbH, Berlin. The body is approved by the Governmental Department (Regierungspräsidium) for Measurement and Calibration, Tübingen in agreement with the Federal Physical-Technical Institute, Berlin as competent body A1 for heat cost allocators in accordance with § 5 of the decree on heat cost allocation.

Summary

Inspection body/Inspection place:	Universität Stuttgart Institut für GebäudeEnergetik Pfaffenwaldring 35 70569 Stuttgart
Applicant:	Sontex SA CH – 2605 Sonceboz
Manufacturer:	Der Antragsteller
Type designation:	555 (basic version) 556 (radio version, subtype to 555)
Supplement to:	-
Requirements imposed:	no
Retesting necessary:	no

The tested heat cost allocators 555 and 556 meet the requirements of the EN standard 834. The suitability of the heat cost allocators with the decree on heat cost allocation is approved.

The reference number of the decree on heat cost allocation is: A1.02.2008

The testing results correspond solely to the designed inspection objects. Any change concerning the designed heat cost allocator or its use must be communicated directly and un-requested to the inspection body. The report runs to 40 pages and can be published without written permission by the inspection body only at full volume.

Stuttgart 16. April 2008
